

APPLICATION FOR VARIANCE

Applicants name:

Address:

Project Location:

Name of Stream/water body at location of activity_____

Location _____ 1/4 _____ 1/4 _____ 1/4 Section _____ Township _____ Range _____

ASSESSOR ID # OR TRACT #_____

Project Address

The proposed development is in _____ Floodway _____ Floodway Fringe _____ Flood plain with no elevations

The Base Flood Elevation at project site is: _____ NAVD _____ NGVD

For structures requiring elevation certificates:

MSL Elevation to which lowest floor is to be elevated:

_____ MSL

MSL Elevation to which structure is to be flood proofed: _____ MSL

MSL Elevation to which compacted fill is to be elevated:

_____ MSL

Type of Project:

Purpose of Project:

Variances shall not be issued for areas within a floodway if any increase in the 100 year flood elevations or velocities would result. A floodplain permit must be applied for and denied before a variance can be issued.

1. Explain why the floodplain permit was denied or attach the permit denial:

2. Provide a showing of good and sufficient cause: to grant a variance.

3. Explain the undue or unique hardship the refusal of this variance would cause you or the community:

4. Will this variance cause increased flood hazard elsewhere ? Explain and provide reasoning:

5. Describe the flood proofing measures that will be used for the project:

6. Is there an alternate location outside the floodplain? Explain briefly:

7. Is this request the minimum that would afford relief of the situation? Explain Briefly.
